

Lincoln Nebr May 1965.

Our next regular meeting will be May 25th, Tuesday being the last tuesday in the month. Nebr Wesleyan Science Bld, 7.30PM.

Earl Moser has a good program arranged for us as usual.

We will also discuss what progress has been made relative to our own observatory. If you missed last meeting, we went into the possibilities of construction and location of a observatory for ourselves, and from an Optimist standpoint, I for one think and feel sure it is in our near future. We will continue where we left off at that meeting.

Note I had planned to have a private Sky party Friday Night this week, but due to my moving and all the other excitement I overlooked an important meeting on that night. Now I Believe Earl Moser will be out at his place and those that could go would be welcome *

On the Night of June 7th we will hold a Sky Party for the Public at Gateway shopping Center, starting at about 7.30 PM.

*Meeting, Nebr Wesleyan Science Bldg. Tuesday May 25th 7.30PM.

Come and bring a friend. Im going to bring Two.

"Oh Yes" There, s a good sized spot on the Sun. I saw it at noon today May 18th. Att Rickey Johnson.

Your Sec.y has moved to 780 1/2 SO Sycamore St. Phone 488-2112.

LETS HAVE A GOOD MEETING NEXT TUESDAY. ITS FOR YOU AND YOU.
