9-66 PJ

Prairie Astronomy Club

Sept 27th 1966.

Next Regular Meeting Sept 27th, Mebr Wesleyan Science Bldg 7.30 PM.

Its Dues paying time so come prepared. 06.00 for Sky and Telescope Magazine and Club Dues.

Now, Thursday, this week, we are having a public sky show at Gateway Shopping Center, — Its dark about seven P L Come -Bring your Telescope and enjoy the Show. You Willget a big thrill out of the public re-action.

I dont know at this time what Pres, Earl has lined up for our program. You can bet it will be interesting.

So. S K Y SHOW AT G A

MAY Thursday Hight.

Meeting

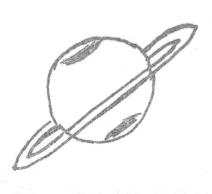

Hight

THEMSE TURSDAY SEPT 27th Hebr Vesleyan Uni. Science BLDG

An election of officers of your Club is not far off so be thinking about who you would like for the Coming year.

In a hurry, Jess Williams Honday Sept 19th.

THEMSE TURSDAY SEPT 27th Hebr Vesleyan Uni. Science BLDG

An election of officers of your Club is not far off so be thinking about who you would like for the Coming year.

In a hurry, Jess Williams Honday Sept 19th.

The President Reports.

Then observing deep sly objects, do we sometimes overlook the obvious in search for something news? Do we fail to see the forest because the tree, s are in the way? These olds sayings have quite a bit of truth in them.

On sat, sopt 10th, Rick Johnson, Nonte, Steve, were out at my place.

We had done quite a bit of observing in the southern milky way. We found a lot of Globulars and Clusters in Sagittarius. [3] was getting fairly high and out of the haze. A close look at it revealed some dark lanes. They ran paralel to the length of the galexy. Just below the nucleus, about one third of the way ---- toward 11-32.

About one thirty, Rick loaded his telescope in the car and I was ready to put mine away. I looked up and H31 was directly overhead. I put in the 10mm eyepiece which is about 03% on my 8 inch scope. After getting the nucleus of the Galexy centered, I then moved to the left, then to the right of center. Sure enough I could see the dark lanes going nearly all the way around the Galaxy. So with a little time and patience, and an excellent Sky Condition, New and inspiring thrills can be had with Minight even the oldest and most common of the deep sky objects.

Earl Hosor, Fresident.

발생님이 있다면 그렇게 그 나를 하는 것이 사이지 않는데 되었다. 경기 나는 보고를 받았다.
