Organized 1960.

May 1968.

Letter NO. 23

Meeting May 28th. Nebr, Wesleyan Science Bldg, 7.30 P M

The Presidents Report.

The 1968 annual convention of the Mid-states Regional league (Astronomical) will be held July 19-20-21. Our Club first attended this convention last year. We were so much impressed by the convention that we joined the league. This will be our first year at the convention as a league member. I hope more members of our Club can go to this convention.

The main event will be a talk by Walter Scott Houston. Mr Houston is author of "Deep Sky Objects" in Sky and Telescope magazine.

I also have offered to present a talk and show some pictures. For those of you who have seen my pictures, they have an outer lobby where you can wait.

I have convention notes which will be passed out at our meeting. Other details are to be found elsewhere in this news letter

Earl Moser

** **

The following names have been received the last month or so and your Sec,y would like a check on them. Right or Wrong ?

Rex Brinton 1315 Plum St.	James Buttke 360 Eastridge Dr
Roger Severns 3717 so 18	Vern Holovek 1311 SO 11th St

We have had a lot of calls in regards to Good used Scopes for sale, and to Buy. Let you officer know what you have, Buy Sale or want to Buy.

** **

Next SKY SHOW will be at GARDEN SHOPPING CENTER June 3rd.

** **

One of our members, Monte Cole has completed the Messier objects, and should make the front page of the "Reflector" soon, and another Member "Scott Coatsworth" is very close to Completion. "woops" I left out the M in Complete.

We hope to have a good meeting the 28th, so come out and enjoy our activities. See you. Refreshments too.
