

cont.

Democratic Convention earlier that week. We did have a minor disturbance tho during the banquet on Sunday Evening. It seems that suddenly the room was filled with a sort of high pitch--wailing or whistling noise. The Hotel engineers were frantically trying to remedy the feed back in the P.A. system. After turning down the volume and then disconnecting it altogether, the squealing continued. It was finally discovered that SOME ONE had been playing a musical tune by running his fingers around the top of the water glass. Other people at other tables got the drift and started doing it too, and soon the whole Room was filled with a strange sort of whistling tone. at this time I want to apologize for any inconvenience that I may have caused by playing with the water glass.

A graze at 5.30 a m on saturday Sept 14th was missed by about 1 minute. We cant blame the weather this time. It was -- perfect. We started early enough at 3(Two) AM, but had to go -- back through Lincoln to pick up the tape and get gas. Then we got our time mixed up . Was it to be at 3.30-4.30- Or 5.30 DST? Fouled us up there, and of course the brain cells went up to par at that time in the morning. We finally decided we had an extra hour, or untill 5.30 AM. We still had 75 miles to drive. We found the school house as indicated by the survey map. There was -- another 15 Min delay while picking the exact location from there.

We finally got the scopes set up and the recorders and Radios going by 5.30 AM, but the event had just happened. So it was -- pack up and back to Lincoln. We were finally on our way after -- having to push one of the cars out of the ditch.

I got back to hickman at 8. AM, just in time to go to work. I really wasn't discouraged by all of this ,but the next time we will make better plans, start a little earlier and not travel so far.

Earl Moser Pres.

 We have been invited to put on a program for the Lincoln Audibon society, Dec 11th in Morrell hall, up at the Uni. More about this later.

Special*** Sky Show At Gateway. Monday Night Sept 30th.
 First Qt Moon. Saturn in Fair Position. Come and bring your Scope and meet the Folks. Its Fun and Also Rewarding.

 We would like to see some of the Older members, those who were responsible for this club, as well as the new members come to our meeting. Make a date with yourself and come.

Meeting Sept 24th, Science bldg Nebr Wesleyan Uni 7.30 PM
 Refreshments as usual.

 Larry Stepp can make it for you on his Lathe. Anything Special
 Monte Cole has a gob of stuff for sale. 8 inch, 6 inch and other Misc Items . A swell Star Atlas also for sale.

Members as of May 1st 1968.
