This month's meeting will be held in our usual meeting place at Olin Hall of Science on the Wesleyan campus at 7:30 p.m. Our meeting will begin with a planetarium show by Prof. Moore, followed by a program entitled "Extra-terrestrial Life," by Ed Woerner. The door prize this month is a copy of Amateur Telescope Making--Book One, always a favorite with amateur astronomers, but you must be a member, and you must be present to win. Come try your luck.

\* \* \* \* \*

The new Modern Astronomy magazines are in, so pick one up at the meeting for 25¢. Also, the Observers Handbooks will likely be there although they are not yet available as of this printing. We have ordered 15 copies of the Handbook, each selling for \$1.65, and they include all the predictions for 1973--eclipses and occultations for the various celestial bodies; everything you want to know for the coming year. First come--first serve.

--GATEWAY ANNOUNCEMENT--

There will be no more Gateway shows until next spring due to the rotten weather.

Sorry about the short newsletter this month, but our contributors are all on vacation. If you have an article, some personal thoughts, a want-ad, anything you'd like published here, just give us a call. We welcome literary contributions. See you at the meeting.
