**** THE PRAIRIE ASTRONOMER ****

As usual our meeting will be held at 7:30 pm in the Olin Hall of Science on the Nebraska Wesleyan Campus. Jack dunn will have a NASA film for us and Earl Moser will present a program on time laps photography thru the telescope. There will also be refreshments and door prizes, so don't miss the meeting.

-----THE PRESIDENTS REPORT-----

At this months meeting nominations for club officers will be held, so start thinking of someone to nominate, even yourself. The present officers have, most of them, had long terms and could use some rest. Also new officers make for new ideas for the club..

This was an active month for the club, on Monday Sept 16 Dick Hartly gave a program on astronomy for the general public at the Library on the corner of Fremont and Touzlin, near Havelock, and he ask if some club members could bring their telescopes to the parking lot for observing after his program. Brian Rugg, Dr Manthey, Dick Hartley, John Bruce and myself were present. There was a good turn out and we showed many people the wonders of the skies.

Earl Moser
President

The Observing report will be presented at the meeting.

-----GATEWAY SHOW-----

This months show will be on Thurs. sept 26 and the following night if cloudy. The Oct show will be held on thurs the 24th and the following night if cloudy.

The turn out from the club has been very bad this year compared to last, this could only be due to conflicting dates for some people and I hope that is correct. If at all possible come out to Gateway this Thurs.

SEE YOU AT THE MEETING
